OVERVIEW RMS

by Centre for Research Management ISN

Research Management Centre (RMC) is responsible to enact, structure, plan, develop and execute policies, rules of conduct, and procedures related to a research programmes or research projects conducted within and outside of the premise of ISN. Besides that, the Centre coordinates, monitors and evaluates the impact of research activities which includes systematic reporting on research grant, research progress, research output, outcome and impact. In addition to that, the Centre is highly engaged in the procurement of scientific equipment for research purposes. Effective from 2017, all research applications are through the online Research Management System (RMS). This system facilitates the following processes:

1. Application of research proposal paper
2. Application of research grant
3. Application of research ethics
4. Application of research assistant
5. Application of intellectual property
6. Application to attend conference
7. Application to further study
8. Submission of research progress and final report
9. Submission of articles for publication
10. Submission of research assistant monthly report
